# GETTING STARTED

The BBE Sonic Stomp is our renowned Sonic Maximizer fused into a compact and road-ready pedal. It restores your signals natural clarity and depth; making the lows tighter and the highs more intelligible, almost like someone removed a blanket from your speaker cabinet. The Sonic Stomp can be used with any and all amplified instruments such as basses, guitars, keyboards, synthesizers etc.

## FEATURES

- 4th Generation Sonic Maximizer
- True hard-wire bypass
- Blue LED status indicator
- Easy access battery compartment
- Non-slip rubber bottom

## CONTROLS

**Lo Contour** - Regulates the amount of phase corrected bass frequencies

**Process** - Regulates the amount of phase corrected treble frequencies

## SIGNAL CHAIN PLACEMENT

To ensure the most noticeable results we recommend placing the Sonic Stomp at the end of your signal chain or through your amplifier's effects loop.
